

**CORPORATE
ASSOCIATES**

Why become a Corporate Associate ?

Major geotechnical companies around the world support and participate in the ISSMGE activities.

By becoming a Corporate Associate, they contribute to financing these activities, while getting **large visibility within the geotechnical community.**

Join us as a Corporate Associate now !

As a Corporate Associate, an organization benefits from a number of advantages:

- **The opportunity to get involved in ISSMGE technical activities:** Technical Committees of ISSMGE, Corporate Associates Presidential Group (CAPG), which has direct access to the ISSMGE's President.
- **Access to technical information:** ISSMGE-sponsored conferences at reduced rates, and technical reports and literature made available through ISSMGE website.
- **Maximum exposure:** permanent logo and web address in the ISSMGE Bulletin and on the ISSMGE website, recognition in the opening ceremony speech by the ISSMGE President at ISSMGE sponsored conferences, dedicated page in the ISSMGE Bulletin for advertisement, etc.
- **Ability to network** with other ISSMGE Associates, Member Societies and Individual Members.

"One of our aims is to reduce the practitioner-academic gap within the Profession. We need your support and feedback worldwide to initiate new technical actions and improve geotechnical practices ever more."

Roger Frank
ISSMGE President

The Corporate Associate fee is currently US\$1500 per year.

More details and registration form available on ISSMGE website:

<http://www.issmge.org/en/corporate-associates/>

They already joined the Corporate Associates. Are you among them ?
